BEENHAM PARK 1980

ARC

ARC Southern wish every success to Mortimer and District Motor Cycle Club, organisers of the World Championship Side Car Event. At Beenhams Park, and at countless other sites up and down the country, ARC has extracted sand and gravel for many local development projects. For foundation materials, for processing into Premix ready mixed concrete and for construction work. But that is only part of the picture. As Britain's largest producer of aggregates ARC has a clear policy on reclamation of worked out pits. They may be filled and returned to agriculture or for building, or, in the case of Beenhams Park, developed for sports and leisure use.

We make more of Britain's natural resources
