Bill Bennett, Chairman of the Manx Motor Cycle Club, welcomes you to the 2011 Manx Grand Prix

Welcome one and all, old friends and new.

The Manx is a tradition, a part of our inheritance, and an up to the minute event. It blends old and new machinery, and competitors who've been coming back year after year, along with newcomers making their first bid to make their mark and see their names on our trophies. Every single rider deserves our respect and admiration, whether a winner or not, simply getting to the start line for practice is an achievement. The Manx is for them, the rest of us are the supporting cast.

Our non-competing visitors fall into the same groups as well. Some of them might be here for their thirtieth or fortieth Manx, but some are here for their first visit. Even our thousand plus helpers, in whatever task they've taken on, could be new or old hands. Thank you to all of you, without you there would be no racing.

Not only the human dimensions change, look at the technical variations that have taken place. The obvious development of machinery, bringing different classes to the forefront, but just as important are the better tyres, brakes and reliability that modern machines give us. Improvements on the course itself, and in the paddock. It will be interesting to see what effect the new limits on the number of starters, and setting them off singly, will have on the racing. With all this change, it's hardly surprising that the Classic and Post Classic races have such a strong position at the Manx, but even there we can see alterations.

It's this constant change that helps to keep the Manx from getting stale. The Manx Motor Cycle Club has been running the Manx since it started in 1923, and we are justifiably proud of its history, but for all that, we welcome many of the developments that have taken place, and of course we have been the instigators of many. It is certainly not a case of "the more things change, the more they stay the same".

So, whether you're here to compete, to help with the running of the event, to support a rider, or simply for the pleasure of spectating, I know we all have one thing in common, and that is a love of road racing on the world's ultimate motor cycle racing course.

Enjoy the racing and come back again.

IOM TT MARSHALS ASSOCIATION

Welcome to the Manx Grand Prix Festival 2011. It hardly seems that the dust has settled from a fantastic TT, and here we are doing it all again.

Thank you very much to those who have agreed to marshal for us, both old and new marshals, you are all very welcome and your support is very much appreciated.

If you are thinking about becoming a marshal, or would like to have some more information on how to become a marshal, you can call in at our office at the rear of the TT Grandstand, ring us on 01624 618191, email us at info@iomttma.com or visit our website at www.iomttma.com

As you may or may not know it takes a little over 500 marshals to man the Mountain Circuit and of course we need that number every time there is a practice or a race.

The marshals supper this year has been moved to the Villa Marina due it's popularity it and will be on the Monday night of race week. I hope to see as many of you there as possible for what is always a good night.

For those of you that have marshalled at both the TT and the Manx Grand Prix Races remember that you can apply for a discount with the Isle of Man Steam Packet Company, simply call in at the TTMA office to pick up your form.

Have a enjoyable Manx Grand Prix Festival, a safe journey home for those of you from across the wet bit and we look forward to seeing you all again be it at the TT or Manx Grand Prix Races.

Terry Holmes
Chairman I.O.M.T.T.M.A.

SPECTATOR SAFETY & BEHAVIOUR GUIDELINES

PROHIBITED AREAS

No person or vehicle shall during a closure period enter or remain on any area of land specified as a Prohibited Area. The extent of the Prohibited Areas shall be clearly marked and indicated by notices bearing the words 'PROHIBITED AREA'.

SPECTATORS ARE NOT PERMITTED IN THESE AREAS. SPECTATORS ENTERING THESE AREAS MAY RESULT IN THE PRACTICES OR RACES BEING STOPPED AND MAY ALSO FACE PROSECUTION.

RESTRICTED AREAS

No unauthorised person or vehicle shall during a closure period enter or remain on any land specified as a Restricted Area. The extent of the restricted areas shall be clearly marked and indicated by notices bearing the words 'RESTRICTED AREA'.

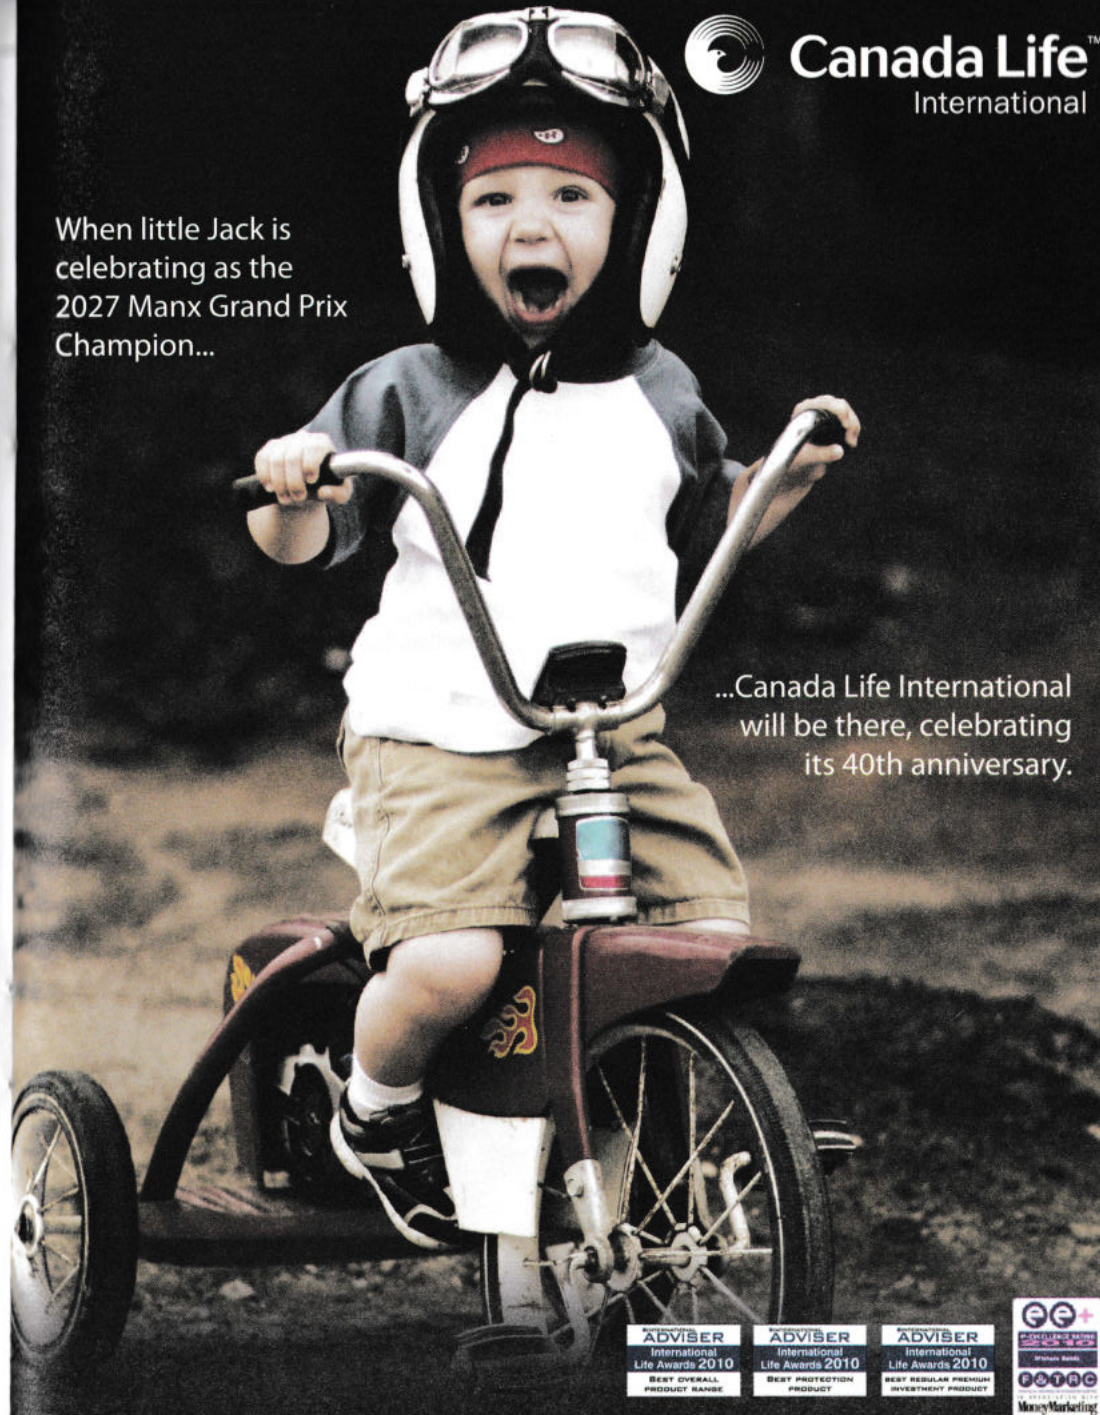

The Manx Grand Prix Festival is one of the greatest spectator sports in the world. Nowhere do you get as close to the action as you would sitting on a hedge on the Isle of Man surrounded by breathtaking scenery as the country's leading road racers pass you. However, MGP race spectators have a responsibility to themselves, the marshals and the riders to watch the races in a responsible manner. Motorsport is dangerous and while the organisers recognise that you want to get as close to the action

as possible you must follow the rules, listen to the marshals and keep your wits about you at all times. The bikes can reach speeds of up to 180mph and at no point can you go onto the track itself until the roads open car has passed the point on the circuit where you are.

Every year the course is reviewed and spectator viewing areas are altered according to the changing nature of motorsport. Changes in machinery can mean that what has previously been safe may no longer be the case. As a result areas that you may have previously watched from may now be prohibited or restricted. You must respect the marshal's advice and look for an alternative viewing area. With a track stretching to 37³/₄ miles you are not short of alternatives!

Any unruly spectators will be dealt with by the police and in order to do so the practice or race may have to be stopped. The safety of the public, marshals and riders will not be compromised.

Enjoy the event and we look forward to welcoming you back on the Island for many years to come.

Important Information for MGP Visitors

The uniqueness of this road racing event creates safety issues that you might not automatically think about. Here are a few road safety tips that will help you to enjoy MGP 2011 to the maximum advantage

- The MGP course is entirely comprised of public roads, and these roads are closed when the races are in action. However it is important to remember that when the roads are open both residents and visitors use these very same sections of the course for their day to day activities. With this in mind, you should be prepared for regular traffic on the MGP course when the roads are open including queues at roundabouts and junctions
- You might be tempted to 'open up' your machine on long stretches of road, but for the safety of other road users please drive well within your capabilities and be mindful of your surroundings – expect the unexpected
- On right hand bends make sure that both you and your machine are behind the white line – not just your tyres
- The MGP festival attracts visitors from far and wide, many of whom may not be used to riding on the left hand side of the road. With this in mind, please take extra care when approaching areas where their journey might start for example campsites
- You need to be aware that temporary speed limits will be introduced around the Island to help our roads cope with the increased volume of traffic, but primarily improve safety for all road users
- Any driving ban imposed by an Isle of Man Court is applicable in the UK as there is now a reciprocal ban agreement in place – so a moment of madness could cost you dear in the long run
- In addition to the MGP races, you will probably want to go out and enjoy the many attractions on offer all over the Island. Naturally you may fancy the odd beer or two, but if you are going to enjoy the local brew then please leave your bike where you are staying. Alternatively stick to a soft drink as:

**Riding + Alcohol + Unfamiliar Roads
= Injury and Misery**
