Some details of sections used in this trial

<u>Cobbledicks</u>	
Steep rutted climb ,quite difficult if wet.	3 subs
<u>June's Delight</u>	
Probably this section is as near the 'classical' rock section as will be found in this trial, with rock steps of up to four feet in height.	8 subs
<u>Crink Um</u>	
Has been used in various forms for many years always good for a few marks. The good rider must clean.	4 subs
<u>Staircase</u>	
The first of the typically local loose rock hills. No cleans last year, although several good tries.	3 subs
<u>Raspberry Ripple</u>	
Bottom gear of no use whatever. A straight up blind-flat out. Two cleans 1966 when slightly wet.	3 subs
<u>Jim's Joke</u>	
A new hill. Will take a terrific toll of marks but should be conquered by the top men.	3 subs
<u>George's Goyle</u>	
Six subs of the best rockery. Fine balance and delicate throttle control is an advantage. Still awaits the first clean passage.	6 subs
<u>Tucker's Ditch</u>	
Can be cleaned, but only about 10% will achieve this.	3 subs
<u>Ut Yer</u>	
This section has had a face lift and is an unknown factor at the moment.	3 subs
<u>Tucker's Mud</u>	
The mud slingers delight. Full bore for three subs.	3 subs
<u>Langworthy</u>	
A new one. Stream bed plus a rocky hill.	4 subs
<u>The Climb</u>	
The first time this section was used it stopped the lot and had to be cut out. Years later and we still await the first clean. Best score to date four marks lost. Just seven subs of loose rocks on a steep incline.
