DRIVE ON A RACE TRACK

When you join a circuit car club you will be sent three tickets each entitling you to 20 laps driving your own silenced road car round the Brands Hatch, Snetterton and Mallory Park race tracks. Each track is properly supervised and now has permanent catering services. Members are covered automatically by legal liability insurance and low-cost personal accident insurance is available as an optional extra.

ENJOY A CIRCUIT

Close to the paddock at Brands Hatch and Snetterton, and to the hairpin at Mallory Park, members have their own modern-style motoring pubs and clubhouse. They are open every Tuesday and Thursday evenings, at weekends, and on all practice and race days. Apart from their attractive

CLUBHOUSE

bars, set against a background of motor badges and paintings, the clubhouses are also equipped with music and amusements. The clubhouses are also the scene of members' film shows, dances and cocktail parties in honour of racing drivers and other motoring personalities.

A Background to Karting . . .

IN the autumn of 1959, a small classified advertisement appeared in one of the motoring magazines to the effect that a demonstration of karting would be taking place at Brands Hatch. The man behind this move was Albert Zains, manufacturer of the Azum kart, and he invited all and sundry to come and see what this new sport was all about. For some reason the idea of the demonstration appealed and thousands of eager spectators poured into the circuit to watch a selection of the very first British karts putt-putt their way around a simple straw-baled circuit in front of the Grandstand.

Amongst the crowd were many who were so enthusiastic about the potential of karting that they have remained with it ever since and can be numbered as some of the mainstays of the sport.

Over the next six years karting steadily grew in Britain until the stage has now been reached where those original class 1 motors developing a wheezy 2½ h.p. now give 15 h.p. and the class IV motors have climbed from 10 h.p. to 28 h.p. As the total weight of the kart is now also about 10% less than in 1959 one can see that any connection between karting then and now is solely that at first appearance the two machines have the same basic layout. Such enormous increases in power output have made karting a genuine part of motor racing and developed the early rather primitive equipment into sophisticated machinery.

Faster speeds have encouraged the use of wider and longer tracks

until eventually the inevitable happened — somebody tried a kart on a full size motor racing circuit. No longer being limited to a 100 yard straight imposed problems on gearing, wheel balance, port timing, engine cooling, ignition advance, exhaust length tuning and many other items but soon all were overcome and the joy of big-circuit racing was discovered. Brands Hatch is obviously an ideal circuit for karts because there is still plenty of challenge from the tighter corners, variety from camber and gradient changes and because of the splendid setting offering such a fabulous view.

With either a 100 c.c. or 200 c.c. tiny two-stroke engine running on pump petrol, the karts you will see today will be reaching speeds of around 100 m.p.h. and lapping in times that would make race fans of '50s go apoplectic. Their cost is just a mere fraction of a similarly performing car and they have the advantage that kitchen table maintenance is perfectly practicable. The charge is sometimes levelled that the price of a new racing kart at about £170 is too expensive but it must be realised that because of the thousands that compete in the sport, there is a large source of good secondhand machinery which is perfectly raceworthy at a reasonable cost.

Karting brings those of you who daydream in the Grandstands a chance to fulfil that long felt desire to go motor racing — come and join us!

To eliminate inconvenience to patrons as a result of "RESERVED" labels being removed irresponsibly from pre-booked grandstand seats Brands Hatch Circuit Ltd. announce the following new arrangements:—

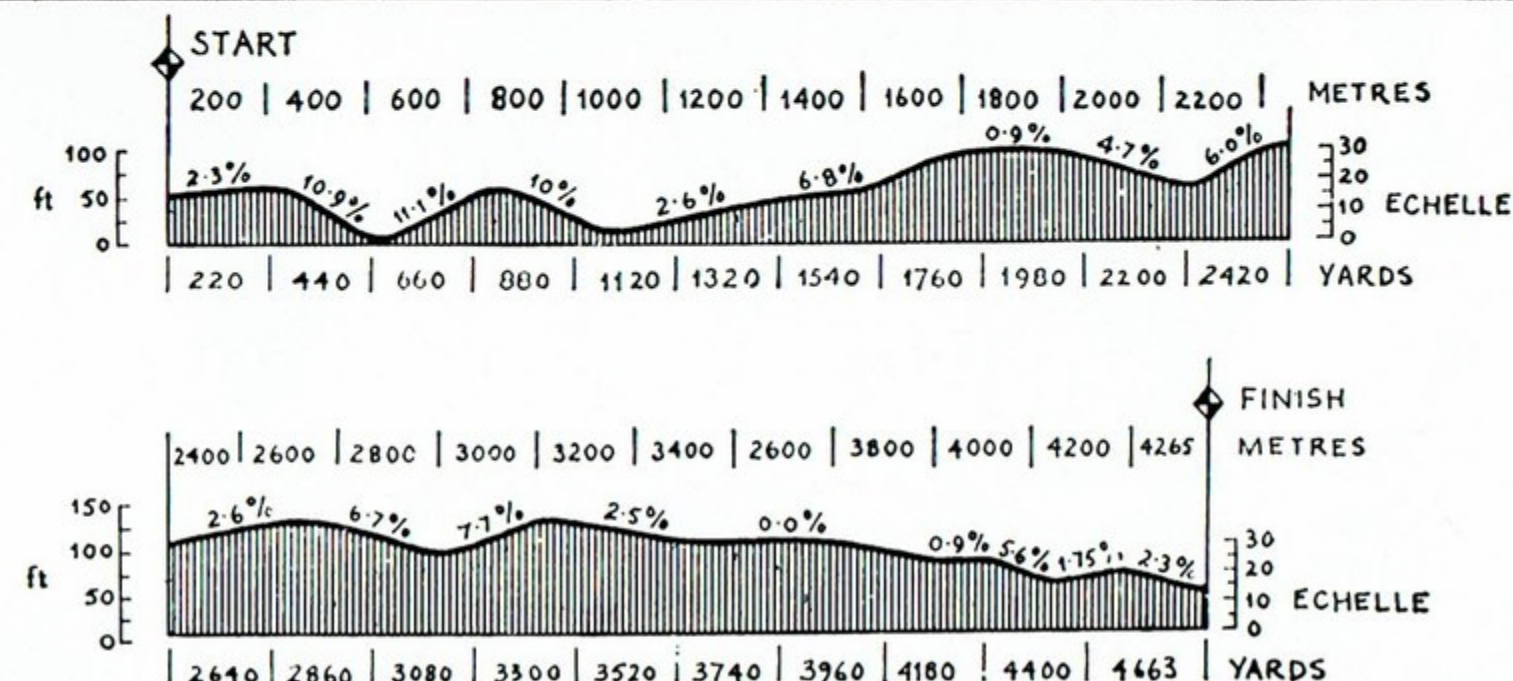

- 1). With the exception of the RAC British Grand Prix on July 16 advance grandstand bookings will, to facilitate better control, only be accepted in the Paddock Hill and Main Startline stands.
- 2). It will not, in future, (except for the Grand Prix) be possible to book isolated seats in various parts of the stands concerned. Instead all advance bookings will be concentrated in a single reserved area offering particularly good viewing.
- 3). Each reserved area will be supervised by an attendant who will ensure that you enjoy the use of your numbered and reserved seat at all times.

* Where Applicable.

Spitfire

THE 'LOTUS' OF RACING KARTS

Q What gives the Spitfire it's famous "GRAND PRIX" stability both on the straight and in the corners?

Second to none in design, finish and workmanship—
It bristles with "GOODIES"

A The answer is the unique torque controlled flexibility of the chassis and the rigidity of the engine mounting.
