#### Welcome

Welcome to the BRSCC's Winter Championship Finals. This weekend's action again sees the new Zip Formula powered by Ford - today supporting their big cousins in the shape of Formula Ford Zetec and also Kent powered cars. An exciting and innovative 'control chassis' single seater series, Zip Formula is certain to attract a great deal of interest as it redefines the opening steps on the motor sporting ladder. Supporting the Formula Fords and Zip Formula are the ever popular Mini Miglias and Mini Se7ens. With further races for a Ford Challenge, a German & Italian Challenge and an Open Saloon Challenge, there's something for everyone here at Brands today.

Today's racing brings to a close the 2001 season for the South Eastern Centre of the BRSCC. The Midlands Centre will be out in force on Boxing Day for the 'Plum Pudding' Race Day, but otherwise the next major event on all of our calendars is the Autosport International Show at the NEC in Birmingham on the 10-13th January 2002, so we Look forward to seeing you there.

Wishing you an enjoyable day's racing  
BRSCC South Eastern Centre.

**DESCRIPTION:** A control single seater formula powered by the Ford Zetec 1600cc S type engine. Utilising a 4 speed Hewland gearbox and Avon all-weather tyres, the Zip Formula has a top speed of 130mph and has been designed to bridge the gap between Karting and existing single seater categories. Constructed with safety in mind, the wings are rigid to prevent inter-locked wheels and serve no aerodynamic purpose.

**AWARDS:** Trophies to 1st, 2nd and 3rd place finishers

**POINTS:** 9-7-5-4-3-2-1 + 1 point for pole position and 1 point for fastest lap.

**DESCRIPTION:** The series is organised and co-ordinated by the Mini Se7en Racing Club in association with the BRDC and is sponsored by Dunlop with additional support from Spax, NGK and Mini World. Mini Miglia was introduced in 1969 following on from the success of the Mini Se7en series. Originally running 1000cc engines (hence the title) it was, for several years, the premier Rover one-make series until replaced by the 1275 GT series in 1976 and the Metro Challenge in 1981. The series in 2001 continues to thrive with healthy grids and close racing. Since 1991 the Mini Se7ens, the less modified cars of the challenges, have used 1000cc Rover A Series engines in their standard Mini bodyshells. Since 1994 the Mini Miglias have used the 1300cc Rover A series engine, following on from the original 1000cc engine. The Miglia cars are allowed further modifications producing faster cars than the Se7en series. All cars run on Dunlop control tyres.

**AWARDS:** Trophies to 1st, 2nd and 3rd.

**POINTS SYSTEM:** 20-19-18-17-16-15-14-13-12-11-10-9-8-7-6-5-4-3. All other finishers 2 points, all non-finishers 1 point.
