Others to be announced on the day

1 st	2 nd	3 rd	4 th	5 th	6 th

Once again it is with great sadness that we have report on the loss of two stalwart members of Dorset Classic; Stuart hacker and Andrew Feltham.

Stuart came to our sport later in life but was very enthusiastic about his racing. One of his highlights was to win the clubs "most improved rider" trophy a few years ago. He was so keen on this award that the club has decided to rename this trophy in his memory. Nominations for this accolade can be suggested by anyone for the committee to decide at the end of the season, to be presented at the annual awards night.

Andy has been around for a long time; his sense of humour would brighten any gathering. He always rode competitively in particular with his brother and mates in the workers race. We now have been presented by his wife a trophy for the Workers Race which I am sure will be hotly contested.

They will both be hugely missed by all in the Scrambling world.

As always Andy Feltham in the thick of the action

Stuart Hacker leading the way

For those new to our sport a little explanation may help you enjoy your day.

The Pre '65 group; white numbers on black plates. Is fairly self-explanatory - Bikes manufactured prior to 1965, some modification is allowed but the bike should remain in the spirit of the period.

The pre '74 group; white numbers on green plates- up to 250cc white numbers on red plates over 250cc. Bikes manufactured prior to 1974. Both pre '65's & pre '74's groups are sub divided into two engine sizes groups.

Twinshocks; Black numbers on yellow plates. These are divided into ability groups, A being the faster group through to D for the less competitive minded rider. Engine size is not considered in these groups. Twinshocks should have - two rear shock absorbers, drum brakes and an air cooled engine. There are exceptions, such as the single shock Yamahas that you can see here today, but that opens up a whole can of worms.....
