Genetically modified

We've taken the winning genes from our World Championship factory machinery. Transplanted them into the new generation YZ models. And created the most technologically advanced range of motocross bikes ever seen.

The all-new long stroke YZ450F motor features an ultra-compact head with 5 titanium valves, and a track developed 4-speed transmission, giving a massive spread of race winning torque. And with its radical short wheelbase high-tensile steel chassis, lightweight brake systems and uprated suspension, this GP-bred 4-stroke is ready for combat!

Check out the evolution of the whole YZ species at your local authorised Yamaha dealer, take a look at www.yamaha-motor.co.uk, or call 01932 358121 for a brochure.
