Welcome Willkommen Bienvenue Bienvenido

It's business as usual!

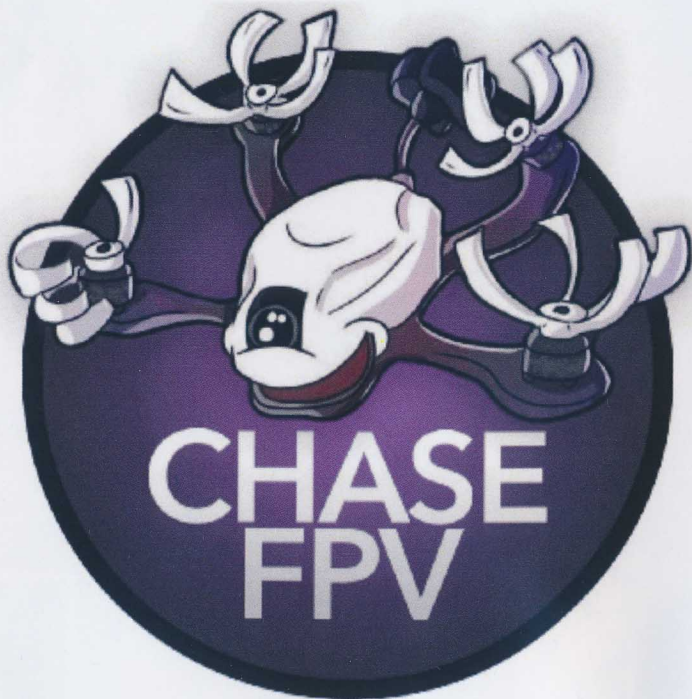

After we were forced to postpone last year's event until September for obvious reasons it's great to be back at this iconic circuit in our traditional slot in early July.

We're all huge fans of Farleigh Castle – is there a motocross circuit so steeped in history anywhere else in the world? – and we're here

because of the ongoing support of the Cartwright Hignett family at Iford Manor along with Steve Thompstone, Ray Fox and Tom. A massive thanks to you all!

There's not a lot else for me to say other than have fun, stay safe and enjoy the weekend!

THE FEATURES & BENEFITS OF THE ULTRA CCTV TOWER HYBRID

Due to our energy-harvesting technology, our HYBRID Tower has all of the same functional features as our OPTOGUARD ULTRA CCTV TOWER - Unlike other self-powered systems.

| POINT OF DIFFERENCE | BENEFIT |
|--|---|
| Self-powered system | The most cost-effective solution to protect remote or non-powered sites with ease. |
| Wireless, alarmed, detection system | No wires to run or fear cutting! Multiple wireless sensors (40m or 60m each) provide alarmed site coverage. |
| Up to 1km peripheral detection range | Longer range enables fewer Towers to cover the same site, compared to any other system on market. |
| MAXIMUM intruder deterrent features | Includes: Audio challenges, Police siren, LED spotlight, 8m tall tower mast and anti-climb design. |
| 24/7, SSD, on-board recording with expandable memory | Up to 30 day, time and date stamped footage retrieval downloads. |
| Fully monitored | Duplex monitoring by Optosafe and Cat 2 monitoring station accredited to BS5979 and ACS standards |
| Simple to assemble and install anywhere on-site | No lifting or towing means we can put a tower almost anywhere on your site. |
| Live camera login for clients | Uncomplicated and free access to view and control your cameras anywhere, any time. |
| HD predator camera with STARVIS night vision technology | Enhanced camera quality in daylight and darkness, better than Infra-Red. |
| Customisable H&S Audio Announcements | Any custom H&S announcement, recorded and played on a daily schedule. |
| Time Lapse Videography | View your project from start to finish via our time lapse video, from snapshots taken & stored every 10 mins. |
