**“Remember you’ve
only got two wheels
between you and
the road, Pete”**

And those Dunlop tyres have got a lot of work to do. They’re not there just to cushion your ride, although they do that of course. They’ve got to carry that machine along smooth as silk, yet they’ve got to hug that road surface as though your life depended on it—which it does. They’ve got to respond to your brakes on wet roads or dry, although you need to use your loaf a bit more when it’s wet. And let me tell you this. You can’t judge tyres by their looks, but you soon know the difference when you ride them. That’s why you’re wise to stick to Dunlop. Like the champs do. No matter what machines they ride.
