Wasp Motorcycles

Wasp Motorcycles was started in the early 1960's by Rob Rhind-Tutt, making a handful of frames for himself and Piers in the Grasstrack and Motorcross sidecar scene. Success quickly followed and Wasp rapidly became a household name in the sidecar industry.

50 years on and around 5000 frames made, including solo's, sidecar's and quads across the range of motorcycle sport. There has been a total of 45 models of Wasp machines for Grasstrack, Motorcross, Speedway and Roadrace, plus numerous bespoke and replica frames made. Not forgetting the Wasp engine which allows the claim to being the oldest ongoing British motorcycle manufacturer. Wasp continue making frames to order, using the same methods and the same jigs as it was 50 years ago.

We would like to thank everyone that has been a part of Wasp, big or small, whether it be an employee or a rider. This celebration trophy is not only about the success of Wasp and its bikes, but also a celebration of the people that have made it what is today. Thank you again for your continued support over the past 50 years.
