 Paddock Marshal K. Harris, Esq.
 Scrutineers A. Absolom, Esq., I/C, H. Heward, Esq.
 Secretary of the meeting and starter: Alan Gray, 52 Cranleigh Drive, Leigh-on-Sea, Essex.

TO SPECTATORS

will you please . . .

- Keep strictly to the areas allocated to spectators.
- Accede to the requests of the Marshals if, and when, they are made.
- Cross the Course only by permission of your nearest Marshal.

And remember . . . Motor Track Racing is Dangerous

You are present at this meeting entirely at your own risk, and this programme of admission is issued subject to the conditions that all persons having any connection with the promotion and/or conduct of the meeting, including the owners of the track and the drivers and owners of the vehicles and passengers in the vehicles, are absolved from all liability in respect of personal injury (whether fatal or otherwise) to you or damage to your property, howsoever caused.

APPRECIATION

The Club would like to express their grateful thanks to all members and friends who came along to lend a hand; to the British Red Cross, without whom this meeting could not be held; to the Salvation Army for the use of the course; to marshals from Eastern Centre Clubs; to the advertisers in this programme; and to those grand sportsmen who go to make a Scramble . . .

THE RIDERS.

LUCAS

Motorcycle equipment
made by motorcyclists
for motorcyclists

**So you think
your bike is
up to the minute!
LOOK AT
THESE**

Lucas have always got the motor-cycling enthusiast at heart and are constantly designing improvements which can be introduced into existing electrical systems. Here are the latest additions to their range:-

Clipper Diode: For direct lighting machines

End bulb blowing by fitting a Clipper Diode into the lighting circuit. Main causes of filament failure on direct lighting machines with generator output up to 30 watts, are excessive voltage generation, poor earths and bad connections. The diode absorbs excessive voltage after it reaches safe maximum value and continues to do so as the voltage rises. Easily fitted **Price 20/-**

Encapsulated Alternator:

The coils are encased in a tough resin capsule to eliminate the effect of vibration. Will give trouble free charging for the life of the machine. Exchange your existing alternator for the latest encapsulated design. Write for details.

Already used in current production bikes as standard equipment to give improved reliability.

L.679 Stoptail lamp:

This unit, which meets the highest optical specifications, is rubber mounted for vibration protection and incorporates a large sealed reflex reflector for extra safety. Now standard on most British machines fitting Lucas equipment. Think of the extra safety factor you will have no matter what the riding conditions. **Price 44/9d. (6v.); 49/9d. (12v.).**

The Starfire 250cc-

New on the scene and hot on the track!

In no time at all, the Starfire, BSA's fastest ever production 250 has made its mark.

Already popular on the road as a light, easy to control machine with responsive steering and reliable performance, it's becoming an even greater success on the track. Under Jeff Smith's superb handling, it won the 250 class of the TV Grand Stand Trophy, and was never out of the first two places in all four rounds. All over the world, competition men are discovering the power and versatility of the Starfire. Developed from the champion 441cc Victor Grand Prix, the Starfire 250cc is fast becoming known as the most potent all-rounder in the motorcycle world today.
