# Girling suspension units keep you in touch.

In the sports bike world Gas Shocks have built a winning reputation with top world ranking riders, proving them in national and international championship events. The competition winning design characteristics of Girling Gas Shocks provide for constant damping even under the most arduous conditions and that means a significant improvement in rear wheel grip and rider confidence.

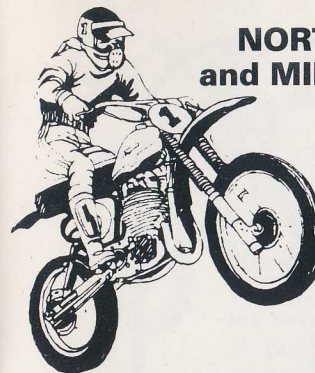

You get the same level of precision engineering in Girling Suspension Units for road bikes – Shock Absorbers that give rider comfort and safe handling when safety matters – so give yourself extra confidence – fit Girling Motor Cycle Suspension Units to your bike.

Ask your dealer for details of Girling Suspension Units for British, Continental and Japanese bikes.

The best way to keep in touch.
