More f in Performance!

In '98 Yamaha changed the face of motocross forever with the launch of the YZ 4-stroke. And one world championship later we're just about to do it again with the awesome new YZ250F. Weighing only 96.5kg and revving to 13,500 rpm, this high-tech lightweight 4-stroke adds a radical new dimension to motocross. And with its new titanium valves, low-friction crankshaft, 250mm floating front disc and lighter swingarm, the latest YZ426F is still the number 1.

Yamaha YZ250F and YZ426F 4-strokes:
Free-revving lightweight performance!
