3D

'Working together – Learning together'

LITTLE SHOP OF HORRORS

Good evening and a very warm welcome to this evening's performance of 'Little Shop of Horrors'.

This fantastic show is based on the 1960 film of the same name. With music in the style of early Motown and 'doo wap' it is a high energy piece of theatre that has been enormous fun to work on. Costumes of the period have been especially designed and made for tonight's show.

Rehearsals began back in June and the cast have been tremendous in picking up and acquiring new performance skills. We hope that you will very much enjoy the filmed sequences which feature in the show and I am very grateful to the staff who have made this possible.

So sit back, relax, enjoy and be prepared to be entertained.

*Simon White
Director*

PS. Please do not feed the plants!

Please note:

At Tuesday's performance there will be the following cast changes:

Chiffon 2:	<i>Maddy Alabaster</i>
Chiffon 3:	<i>Georgie Hendy</i>

PERFORMING ARTS AT ST LAURENCE

In June, St Laurence was recognised as a **centre of excellence** in all five principles of our Performing Arts work in a successful re-designation of our Specialist Schools status. This was carried out by an external advisor, Barry Bates, St Laurence's School Improvement Partner.

However, one criticism from Mr Bates was that, while students were well aware of the benefits of belonging to a Performing Arts College, we did not publicise our work enough. So...

Did you know ...? Some facts about P.A.

1. St. Laurence is one of only two schools nationally with links with the Orchestra of the Age of Enlightenment in an annual week-long project involving all of Year 7 in their first term at St Laurence.
2. St Martin's in the Fields provides musicians for a masterclass workshop with St Laurence student instrumentalists.
3. Professional artists also work with students in whole-Year- group projects such as 'Black Voices' (Year 9) and 'Ramayana' (Year 8).
4. Our animateur works with classes, developing the use of ICT, film, drama & animation in Maths, Science and other subjects.
5. Performing Arts activities contribute 30% of the school's after-school activities.
6. St Laurence has set up the West Wiltshire Schools Dance Company with other local schools.
7. We run summer workshop weeks for students from St Laurence and our feeder schools.
8. Our P.A. staff lead training for local teachers in the West Wiltshire.
9. We are initiating a new TheatreSports project for local schools.
10. We have an exchange programme with Kurume School Choir, Japan.
11. Our Community Youth Theatre has run for 10 years: 5 evening groups for ages from primary age on, putting on annual productions.
12. The newly opened (March 2010) dance studio is a major investment to increase extra- curricular as well as lesson provision.

Some comments from the advisor

'The School is truly a **centre of excellence** ... and a hub for Arts in the area. There is real impetus behind this specialism and it will continue to help to drive up standards at St Laurence.'
