

WORKS FOR THE CR250R. WORKS FOR THE CR125R TOO.

The all new, head turning Honda CR125R has the look of a true champion. The innovative lightweight twin spar aluminium frame features dual box section twin spars strong enough to take on the toughest circuit, providing remarkable handling at racing speed.

We've modified the engine too, and given it a 5-speed gearbox for a more comfortable range of shifting ratios.

Exhaust valve size and shape have been changed for increased power output. New ignition timing and cylinder port timing give better high r.p.m. feel, whilst new flexible reed valve improves throttle response with better low to mid-range control.

Bolt that lot into a frame that's based on the current world champion CR250R and you've got a gutsy, unbeatable combination that'll have the competition eating dirt.

The Shape of the Future... ...backed up by hard facts

Fact: Yamaha rider Alessio Chiodi blitzed the opposition to win the 1997 World 125cc Championship on his production-based Yamaha YZ125. **Fact:** Yamaha's radical new YZM400F 4-stroke won races at five 500cc Grand Prix in its debut season. **Fact:** Doug Henry made motocross history by taking his Yamaha YZM400F to the first ever Supercross win by a 4-stroke at Las Vegas in May. **Fact:** Yamaha motocross bikes won more Grand Prix races in 1997 than any other manufacturer. **Fact:** Yamaha is the only manufacturer to win races in all three Grand Prix categories - 125cc, 250cc and 500cc - in 1997.

You're looking at the beginning of a new era in the off road world.

Equipped with a high-agility 250-sized chassis and pumping a super-wide band of 500-class torque, the awesome new 55 horsepower YZ400F 4-stroke is undoubtedly the shape of the future.

Running with uprated motors and modified chassis designs, the latest GP-developed YZ125 and YZ250 are ready to win at every level - while our YZ80 and YZ80LW get tough new high rigidity frames.

'98 YZ. The widest choice of winning motocrossers. Ever!
