Rochester Motor Club - rochestermc.co.uk

Today's Sprint is organised by the Rochester Motor Club. Sprinters compete against the clock, each has a practise and two timed runs. The cars are split into 12 classes depending on type, engine capacity and state of modification and range from standard road cars to single seat race cars with just about everything in between. Over Thirty Years of Midget Racing

Cornwall Surveying/Lenham Cars MG Midget Challenge – 2007

The challenge continues its 31st season with two races today here at Lydden. It has two new sponsors, Cornwall Surveying & Lenham Cars, plus increased support from tyre supplier Yokohama.

Cornwall Surveying is a new company specialising in all types of building surveys including Energy Performance certificates and Home Information packs. Lenham Cars is a local company and has a long history in sales, servicing, restoration and race preparation of classic cars.

The Midget Challenge is open to all MG Midgets and A/H Sprites including all historic variants such as Sebring Sprites and Lenham Coupes.

There are 3 Classes:-

Class C - Road-going cars based on standard cars with limited engine tuning. They run on control Yokohama road tyres and alloy wheels.

Class B - Cars can have an original body shape with GRP panels and full race engines but with standard stroke crankshafts. Differentials are standard and wheels restricted to 6 inch width with Yokohama slicks.

Class A - Cars are based on 'mod-sports' cars from the 1960s. Engines are full race and can be bored and stroked to 1500cc. Race gearboxes and LSDs are allowed whilst wheel widths are free with Yokohama slicks.
