Foreword

Welcome to Lydden and today's Race Meeting organised by the South East Motor Sport Enthusiasts Club (SEMSEC).

There will be 10 races for all makes and models of cars from saloons, sports cars, kit cars to single seaters. This event is a round of the various SEMSEC championship and challenge series for 2008. We are also joined today by the BRSCC VSR Series which are fully space framed race cars clothed in a wide range of recognisable GRP and /or carbon fibre bodies based on modern saloon and coupe cars.

SEMSEC's philosophy has always been to cater for as many competitors and car types as possible. This philosophy means you will see a very wide variety of cars here today, including everything from old MG's, Minis, Escorts through to the latest Caterham and Radical sports cars and a wide variety of single seaters. Many of these cars will be eligible to enter in at least two of the races and in some cases three.

Before the days racing there is a Sprint run by the Rochester Motor Club. Sprinters compete against the clock, each has a practice and two timed runs. The cars are split into 12 classes depending on type, engine capacity and state of modification and range from standard road cars to single seat racing cars with just about everything in between.

We hope you enjoy today's event and will join us at one of our future meetings.
