INTERNATIONAL RACE OF THE YEAR

Organised by
East Midland
A.C.U.

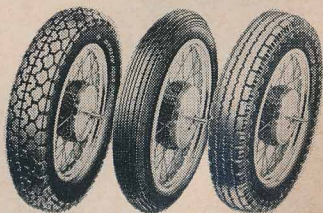

"Us take chances? Not likely mate!"

Of course we like to get along at a fair lick. But let's get this straight. *We don't take risks.* We've got good machines with good brakes. And good tyres. Not just because they've got the name Dunlop on them, but because we've *proved* they're the tops. Take that road-hug rubber as they call it. Means every word it says. Hugs the road a treat, specially in the wet. Safe as houses on corners. Gives you confidence if you have to brake hard. And you get a fair old mileage out of them, too. Yes, when you come to weigh it all up, I reckon you'd have a tough job trying to find better tyres than Dunlop.

Lucas have always got the motor-cycling enthusiast at heart and are constantly designing improvements which can be introduced into existing electrical systems. Here are the latest additions to their range:—

Encapsulated Alternator:

The coils are encased in a tough resin capsule to eliminate the effect of vibration. Will give trouble free charging for the life of the machine. Exchange your existing alternator for the latest encapsulated design. Write for details.

Clipper Diode: For direct lighting machines

End bulb blowing by fitting a Clipper Diode into the lighting circuit. The diode absorbs excessive voltage after it reaches safe maximum value and continues to do so as the voltage rises. Easily fitted.

Price 20/-

L.679 Stoptail lamp:

This unit is rubber mounted for vibration protection. Now standard on most British machines fitting Lucas equipment. Think of the extra safety factor you will have no matter what the riding conditions.

Price 51/6d (6V); 56/- (12V).

Built for the champion in you STANDARD "HAILWOOD" UNLINED BOOT

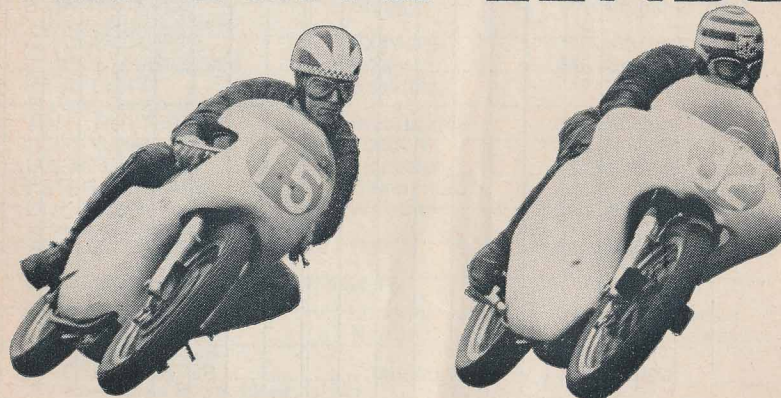

Rain, petrol, oil, paraffin, hard wear, punishing starts—this is the boot that shrugs them all off... is *really* designed and built to stay the course. Extra long (16½"), the "Hailwood" is cut from heavyweight English tanned fully chromed hide and fitted with heavy duty rustless zip fastener, ankle strap and buckle adjustment. Special attention has been paid to the sole and heel which are of "KRYNAC" Nitrile compound—longlasting and resistant to heat and any fluid you're likely to encounter. Waist of the right boot is fitted with "welded in" cast steel patented kick start plate. Uppers are stitched throughout with "Terylene" heavy duty rot and corrosion resistant threads. One final point for extra comfort is that the dressed kip leather lined foot area is treated with an anti-perspirant.
