#### MARSHALLING DUTIES.

If you are unable to marshal for some reason, please see the chief marshal, before scrutineering.

If a rider stops or falls off, get him clear of the track as soon as possible, check that it is safe

to do so before going on to the track. If the rider is injured do not move him if you have any doubts, wait until the ambulance assistance arrives. With the help of the flag marshal try to divert the oncoming riders.

There must be two marshals to a point at all times. If you need to leave your point, call another member to stand in for you.

Report to the chief marshal that you have to leave your point. Both of you are responsible to see that rules are kept, and should report any rider riding dangerously, going through the tapes, and not returning at the same place, overtaking at an obstruction denoted by the Yellow Flag, or any obscene language or rudness by the riders. This now becomes a rule of C.S.S.C. for the safety of all members, passed by the committee.

#### RIDERS.

Your bikes will not be started until after scrutineering or at an interval.

You will ride at WALKING pace at all times between races.

Should you need to test your machine, you will ask the pit marshal. (Do you know who is pit marshal? You should make a point of finding out.)

Do not race after a false start.
