1956 Southern "100" — John Patrick leads another rider round Castletown Bridge

PURE NOSTALGIA

The first Southern "100" was run in 1955, so this year sees our thirty-third meeting. Although the circuit has remained exactly the same (even the bumps) the "pits" in the early days were located at the Stadium. In those days the one day meeting was rounded off with a Motor Cycle Gymkhana on the football field, many competitors using their race machines !

It is not surprising that a short-circuit race in the Isle of Man attracted many Mainland and Irish stars, and it was not long before the meeting was granted "National" status.

In 1964 three riders were presented with special mementos for having ridden in the first ten races, and one of these, John Patrick, actually went on to make it fifteen.

Patrick won the 250 c.c. race in 1960 on his home tuned Velocette, with Robin Dawson in second place on his 250 c.c. Norton. But by now 'Pat' had come to realise that the days of the 250 c.c. four-stroke were numbered, so he decided to experiment. However he quickly became disillusioned with the early 2-strokes after he had been thrown up the road several times, each time when he had closed the throttle.

So he changed course, and built himself a sidecar outfit ! And in 1967 he won the Sidecar Event on a Triumph engined outfit, which breathed through a Weber Carburetter quite as big as the cylinder head.

Thus "Pat" became the first rider to win both solo and sidecar events in a Southern "100"

SOUTHERN 100 SUPPORTERS

The final donation list for Finishers Plaques, in 1986, exceeded the excellent result of the 1985 introductory year. Steady support has been forthcoming this year and the generosity of that support means that a little more Club money that would have gone to providing plaques, can be made available for other deserving causes.

Actual Plaque 4" x 2 1/2"

The reduced size photograph of the Finishers Plaque permits us to insert a subscription form at the bottom of this page.

ANNUAL PLEA TO OUR CAMPING FRIENDS

You will have all seen the 'Zoo-Vet' series on television, so will appreciate what happens when an animal swallows bits of wire and plastic. We don't have too many Kangaroos and Chimps in Castletown, but we do have some very good Cows !

Our good farmer friend allows the use of his field for your convenience, so please be very careful with your bits of locking wire, plastic tape, etc.

His Cows take over when you have left.

Please
Keep
the

Island
Tidy

Ronaldsway Shoe Company

Located adjacent to Ronaldsway Airport, the factory, built in 1965, originally covered some 25,000 square feet but has recently more than doubled in size, employing more than 230 staff. The new extension will, incidently, be officially opened by Stuart Hall (BBC) on 17th July 1987. With luck we may get good publicity visitors to the Championship Race Day on the 16th.

From small beginings as a private company the firm has progressed rapidly, now part of the Lambert Howarth Group, it is a main supplier to Marks and Spencer and additionally provides for other footwear chains, mail order houses and under 'own label' to St. Bernard (Ireland) and world wide including the Bahamas and Hong Kong.

Production of shoes or slippers, over a 47 week working year, exceeds 3,500 dozen pairs per week, — some 2 million pairs a year — this is no small home-fire comfort! The whole process of output was greatly enhanced in 1971 with the introduction of injection moulding.

The staff of the factory come mainly from the South of the Island and Douglas/Onchan area with a large proportion being bussed to and from work at Ballasalla. Additionally there is the Greeba Works and Seconds Sale Shop in Douglas, staffed by local labour.

Ronaldsway Shoe Company is a developing and thriving industrial unit providing a present and long time working future for many and is the result of capable management and employee loyalty.

As well as being a slipper and shoe producer Ronaldsway Shoe Company has been for many years a generous donor to the Southern '100' Suppoters providing the backing for our riders fund.

S.M.R.C. in appreciation of the Shoe Factory Support have named the Solo Championship after the Company.

Thank You

A phone that lets you be your own boss.

With Masterline, every telephone in your office can be programmed with exactly the features the individual user needs.

Because Masterline is the *flexible* new keyphone system—with the big office features—that even the smallest office can afford.

You can have anything from 2 to 36 Masterline stations—each with its own microprocessor control—and up to 12 outside lines.

The features you can select include built-in loudspeakers for hands-free communication, single button calling, three-way

conferencing—plus facilities for call forwarding, call restriction, last number redial, abbreviated keying, and a whole lot more.

With Masterline, your office has a built-in paging system, an intercom system and a messaging system that helps your staff give—and get—faster answers, faster decisions, faster business access.

Ask about Masterline now, at your authorised Plessey Communication Systems Limited distributor.
