WATLING TYRES

TODAY sees the penultimate round of the SEMX Championship and the resumption of the battle for the Expert and Junior honours in 2012. In common with many events this year entries have seen a downturn but nevertheless today sees four groups of riders preparing to do battle over the demanding Canada Heights course.

First race of the twelve race programme gets underway at the conclusion of practice and we shall hopefully enjoy some good spirited and competitive racing under the guidance and watchful eyes of the experienced Sidcup team.

Thanks go to all the officials, marshals and the first aid team, also to all the backroom boys and girls so essential to the successful running of these events. We shall be here in just three weeks time for the final round of the SEMX Championship together with the British Championship sidecars. We hope you will be able to join us for what promises to be a thrilling climax to the season.

Sharing the Secrets of Success

- Do you feel as though you could go faster, get better results, and enjoy your competition more but don't quite know where the answers are?
- Do you suffer with limiting beliefs about your ability? Or find yourself holding back and don't quite know why; you may feel intimidated by other riders or had an accident that has slowed you down.
- Is there a part of your competition that causes you difficulties and try as you might you can't get it right? Maybe you know your best is yet to come but feel you can't wait any longer for it all to fall into place.

These are just some of the difficulties that can be easily overcome. Last year I helped riders from many different disciplines, MX1, MX2, Club motocross, International Enduro, Club Enduro, Trials and Speedway at every level.

A typical example is of a club Motocross rider who came to me because he was having some bad results. He was worried and intimidated by other riders, had also suffered accidents and bad starts, and found himself getting angry and frustrated. We spent five hours working together producing an immediate effect on his results and this year he is competing within a higher group.

Most people think that this is all strange music and Hypnosis, it isn't. This is about basic thinking patterns, it's about understanding how we create our problems and thus limit how we think. It's the undoing of old habits and learning the same behaviour and ways of thinking of the successful riders. My work is conversational, educational, qualified and experienced, results always follow.

What you can expect?

- Amateurs - an increase in performance, results and consistency of around 75%**
- Top level riders - an increase in performance, results and consistency by 15-20%**
