UNIFLO-Safari style

All rallies are hard.

But some are so gruelling you have to be superhuman to finish, let alone win.

And that goes for the car, the engine, and the oil that keeps it driving on at impossible speeds through undrivable country day after day after day.

Esso Uniflo SAE 10W/50 has an impressive record for standing up to this brutal treatment.

In last year's World Cup Rally, Uniflo was the oil used in 4 out of the 5 cars to finish in a field of 54.

In this year's Safari, 74 cars started, 14 finished, and Peugeot won – again with Uniflo under the bonnet.

We congratulate Ove Andersson and Arne Hertz on their skill and endurance, and applaud Peugeot on their choice of motor oil.

You're in good company with Esso
