PRESENTATION OF AWARDS

The winning rider in each class is the rider with the highest number of points. All races shown in the programme will count. Any additional races not shown in the programme will not count towards the overall position. Any ties will be settled by the results of the last race in each class.

MICK STRATFORD MEMORIAL

This event is held to Commemorate Mick Stratford, the inaugural club member founding the North Wilts MXC in 1980. He organised events until his unfortunate death. He loved the sport and this tragedy occurred whilst at an event in November 1981. He will always be remembered and his name associated with this club and we are pleased to announce that the North Wilts club members will be competing for the Mick Stratford Memorial Trophy today. This trophy is awarded annually to the North Wilts rider who achieves the highest race points at this event. It has been a tradition the club has upheld for many years in respect of Mick and will continue to do so in honour of the club founder.

We would also like to thank Mick's wife, Heather, who, with the help from son Paul and family, have sponsored today's event.

Special thanks go to Heather, whom through the years has continued to assist the North Wilts MXC and her help is appreciated by all its members, past and present.

Thank you.
North Wilts Motocross Club Members.

PRESS Release

Motor Sport in the Countryside is Under Threat Again!

The Government has published an *Issues Paper* which states that motor sport events (sporting trials, motocross, etc.) give rise to 'significant concerns', and invites comments and views on changing the '14/28 Day Rule' under which most off-road sport is organised.

Under the 14/28 Day Rule an event organiser does not have to apply for planning permission for the 'change of use' of the land, on the day of the event, from agricultural to motorsport. To have to so apply would be an enormous burden on clubs, farmers and planning authorities for no real benefit.

Haven't we been here before? Back in 2002 there was a Government consultation on restricting or scrapping permitted development rights (the 14/28 Day Rule) for motor sport. The Land Access and Recreation Association (LARA) carried out a survey of all motorsport events on one 'sample weekend' in that year, and followed that up with a survey of any problems arising from these events. Quite simply, the Government's consultants were confusing 'cowboy activity' and practice tracks with properly organised events. Following LARA's submission to the consultation the proposal was not taken further. Now it is back.

The Government's paper has been issued by the Department for Communities and Local Government and is titled: *How change of use is handled in the planning system - tell us what you think. Issues paper. June 2011.*

This is available as a PDF download at the AMCA website - www.amca.uk.com under the associated news article.

LARA's advice is that everyone who has an interest in off-road motor sport should make a response at this stage, stressing that Permitted Development Rights are essential to the continued running of a sport that now has over 100 years of tradition in the countryside, with over 5,000 events a year in England and Wales, which run to strict safety and environmental rules, and which cause few if any problems. All the information you need to assist you in putting a letter together to protect our sport can be found by visiting the AMCA website (www.amca.uk.com) and reading the news item entitled 'Motorsport in the Countryside is Under Threat'.
