Kelvin Vincent

It's just over a year since Dorset Classic Scramble Club sadly lost one of its long standing, much respected and prominent members, Kelvin.

To help keep his memory alive we have been given prize money, anonymously, to be awarded to the first four riders in a group. In addition to this the club has purchased trophies (to be retained by the winners) to go with the prize money.

The group riders that win the prize money and trophies will be chosen by an undisclosed member of the committee. The presentation will take place at the end of the day's proceedings. It is intended that this will be an annual event. Kelvin features on today's cover.

For those new to our sport, a little explanation may help you enjoy your day.

The Pre '65 group: white numbers on black plates. It's fairly self-explanatory - bikes manufactured prior to 1965, some modification is allowed but the bike should remain in the spirit of the period.

The pre '74 group: Bikes manufactured prior to 1974, up to 250cc have white numbers on green plates & white numbers on red plates for over 250cc. Both pre '65's & pre '74's groups are sub divided into two engine sizes groups.

Twinshocks: Black numbers on yellow plates. These are divided into ability groups, A being the faster group through to D for the less competitive minded rider. Engine size is not considered in these groups. Twinshocks should have two rear shock absorbers, drum brakes and an air-cooled engine. There are exceptions, such as the single shock Yamahas that you can see here today, but that opens up a whole can of worms.....
